Important information about search results:

- Always record your reference number!

- For brands containing multiple ingredients, always refer to the overall status listed at the top of the results page.
- Caution: Do not use the Global DRO to check supplement ingredients. See the FAQ for more information about the results of the Search - www.globaldro.com/UK/search/FAQ
- Ingredients and brands will be displayed as:

No action is required apart from printing or emailing the result to the Bowler/Support Personnel's email address for future reference.

Consider the "Additional Information" that is provided. If you meet these conditions, then the Medication is "Not Prohibited".

If you DO NOT meet the conditions, please treat the Medication as being "Prohibited"

ACTION REQUIRED:

The Bowler should speak with their doctor to see if alternative medication is available.

If this is not an option:

- a. If the Bowler is a member of the "Indoor Bowls National Registered Testing Pool" or "Indoor Bowls Domestic Pool", they will be required to obtain a Therapeutic Use Exemption (TUE) in advance of their participation in our sport.
Bowlers will be advised when they have been included in a testing pool.
- b. If the Bowler is not a member of a testing pool, if necessary, they can apply for a retrospective TUE after sample collection has taken place.

Full details of the TUE procedures can be found at <https://ukad.org.uk/medications-and-substances/about-TUE/>

PLEASE NOTE that the onus is now on all Bowlers to check their medication. It is no longer necessary to complete a "Medical Declaration Form" or carry a copy of their latest Prescription, as have been the practices in the past.
