

EIBA Membership Offer

Call us on 01572 770077

Introduction

We at Millennium Telecom and Computer services, are an established business who have been supplying EIBA with a number of IT services for over 10 years now. Such is the strength of our relationship with EIBA, that they have asked us to offer you the membership a bespoke Telecoms package at a preferential tariff. Our telecoms offering includes business phone lines, business calls and business broadband. You will make significant savings by transferring your telecoms to Millennium, typically over a 50% saving on BT's standard tariff.

OUR GUARANTEE TO YOU - we will beat your current tariff! Chris Barratt from Unity Recovery in Leicester reviewed his phone bills and was really pleased when he found out how much he could save. "We switched our billing to Millennium Telecom and have saved over £600 a month on our company's phone bill over the last 6 months."
