Argyle International t/a Greengauge have used their wealth of knowledge and experience gained by working with Bowling Clubs to bring the most effective, fast acting Sanitising Solutions to your club. It is more important than ever to

- Provide a Duty of Care to your members
- Create a Safe Environment on entering the Bowling Club
- Deal with what everyone describes as the New Normal

With this in mind Greengauge are offering the following solutions

The MICROBUSTER MK5 Fogging Machine with its 1400w motor can sanitise a 6 rink Bowling Green and surrounds in a matter of minutes. This machine should be used along with the Greengauge MICROBUSTER Sanitising Solution which

- Kills 99.9% of Virus and Infection including Coronavirus
- Acts within 60 seconds
- Protects for up to 24 hours

The MICROBUSTER MK5 Starter Pack has all you need to get started and includes

- The MICROBUSTER MK5 Fogger Machine
- The MICROBUSTER Sanitising Solution 5L
- 5 Face Masks
- Protective Gloves
- Protective A Grade Glasses
- Funnel

For a price of £240

The MICROBUSTER MK5

1 bottle - £20.00, 2 bottles - £38.00, 4 bottles - £72.00

K3 Wall Mounted Infrared Thermometer

Green Light indicates acceptable temperature

Red Light indicates high temperature

Our Wall Mounted Infrared Thermometer monitors individual's temperature from a distance of between 2-5cm away in less than 1 second. This additional check for every member or visitor entering your club creates peace of mind. It also has the added benefit of potentially providing an early indication of a high temperature for any asymptomatic member.

The thermometer indicates an acceptable temperature by lighting up green, however a high or low reading is indicated by a red flashing light and warning sound. Comes ready to use with rechargeable LI-ION Battery worth £10 and double-sided application tape.

One of the most effective ways to reduce the spread of Coronavirus is by regularly sanitising your hands.

Having our **No Touch Sanitiser Dispensers** available on entry and throughout your bowling stadium will help reduce the spread. With a variety of choice, there is a product for every requirement.

Reduce the risk of the spread of Coronavirus by having the ability to provide your members with our unique double vacuum walled **Keep Calm and Play Bowls Flask** of their own. These double vacuum walled 720ml flasks can be used to keep drinks cold or hold hot drinks at 50 degrees for 6 hours. Available in four colour options.

Keep Calm and Play Bowls Flask
